User Manual

Introduction

This mobile app helps farmers sell their produce directly to buyers, avoiding middlemen and reducing storage costs. Farmers can list their crops, set prices, and have their contact info seen by buyers. The platform provides an easy way to manage listings and connect with potential customers.
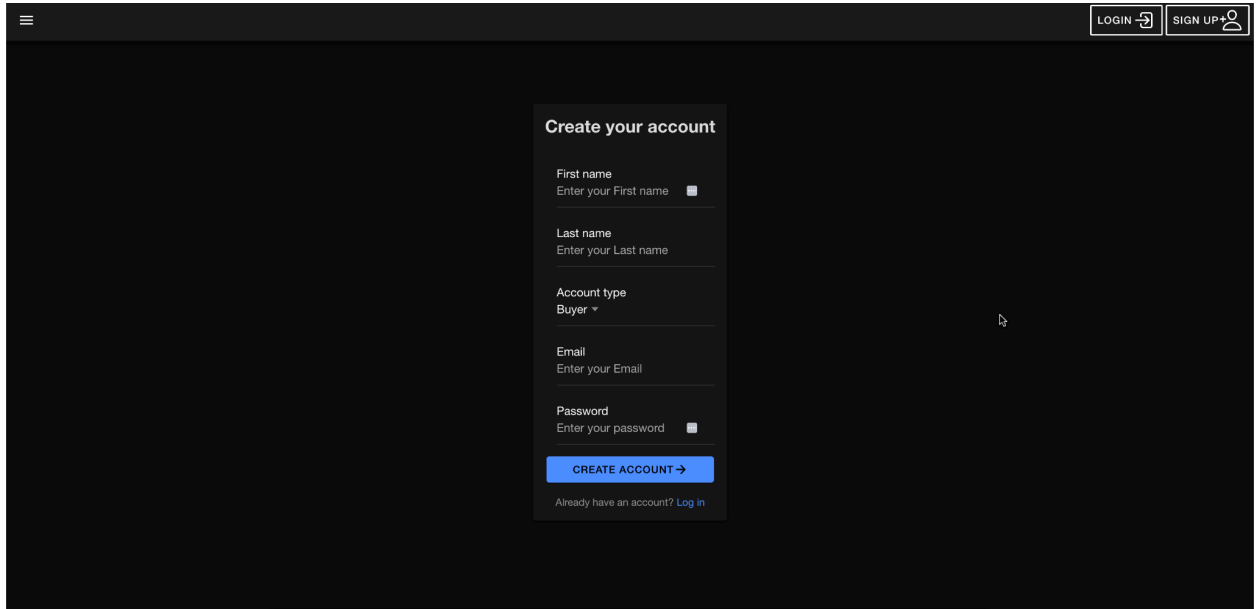

Getting Started

To access the app, visit: **SaveFarmersAPP**
No installation is required; simply sign up and start using the platform.
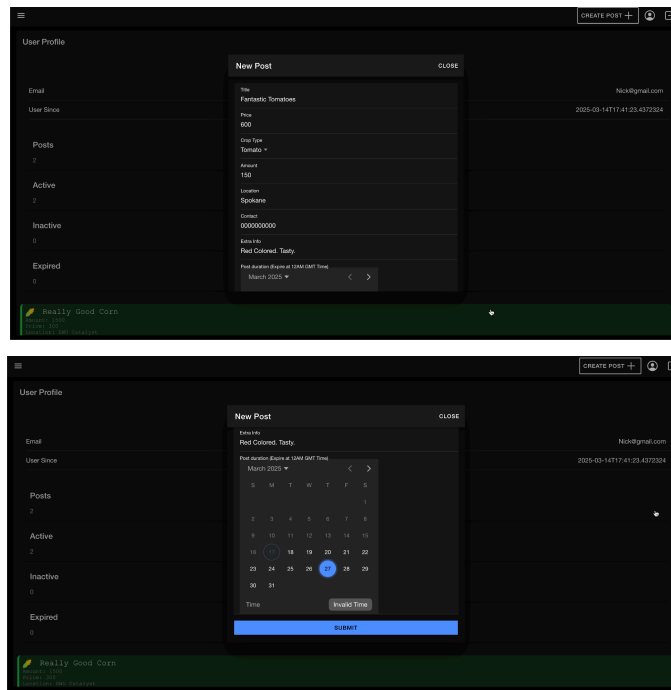

Using the Software

1. Creating an Account

- Click **"Sign Up"** on the top right of the homepage.
- Fill in your **First Name, Last Name, Email, and Password**.
- Select your **Account Type** (**Buyer** or **Farmer**).
  - Select **Farmer** if you wish to sell and/or buy.
  - Select **Buyer** if you only wish to buy.
- Click **"Create Account"** to complete the registration.
- If you already have an account, click **"Log In"** instead.
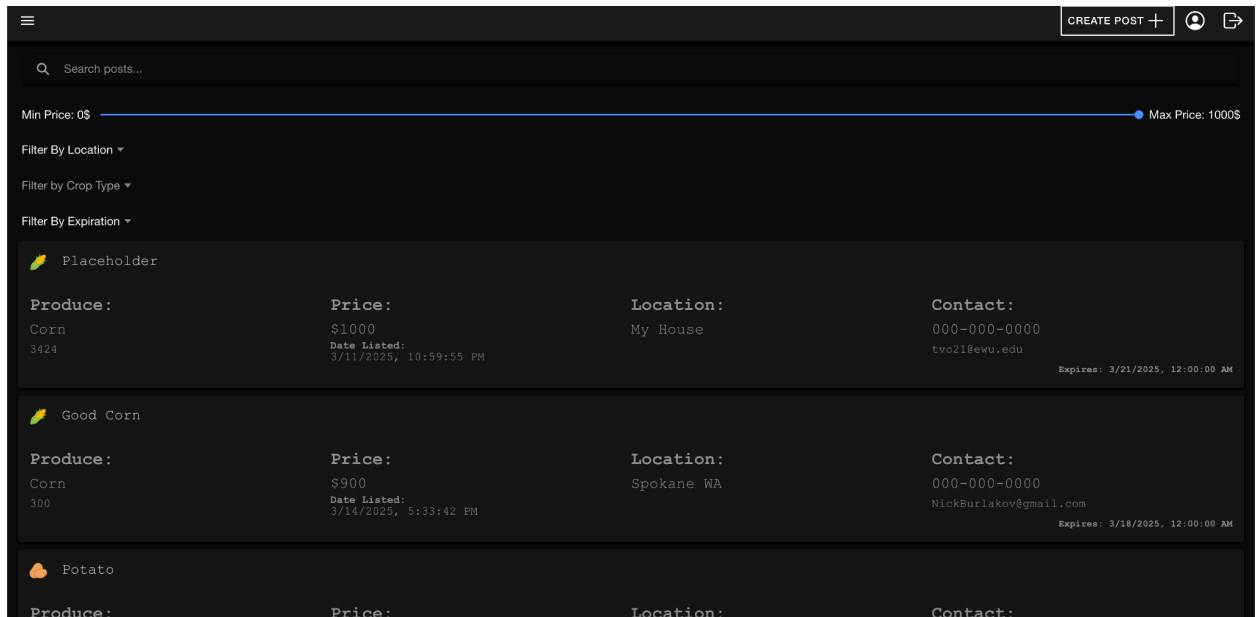

2. Profile Page

- View your **user details** and **post history**.
- See a summary of your **active, inactive,** and **expired listings**.
- Manage your listings (**edit, delete,** or **deactivate posts**).

3. Creating a Post

- Click **"Create Post"** on the top right.
- Enter details like **crop type, price, location,** and **amount available**.
- Click **Submit** to list your product on the platform.
- NOTE: Only a **Farmer** or **Admin can create posts**

4. Browsing and Filtering Listings

- Use the **search bar** to find specific crops.
- Apply filters by **price, location, crop type,** or **expiration date**.
- View available listings.
- Contact farmers using their **seller contact details**.

Admin Panel

1. Manage Users

- See a **list of all registered users**.
- **Delete users** if necessary.
- View **all posts made by a specific user**.

- Check **active, inactive, and expired listings**.
- NOTE: Only a **Admin** has access to this page

2. User Analytics

- Track the **number of Farmers vs Buyers** on the platform.
- Monitor the **number of active, inactive, and expired posts**.
- NOTE: Only a **Admin** has access to this page

Troubleshooting

Issue	Solution
Can't access the app	Check your internet connection and try refreshing.
Listing not showing	Ensure you have submitted all required details correctly.
Trouble editing a post	Try logging out and back in before editing again.
